# GUIDE TO PATTERN WASH LIGHTING

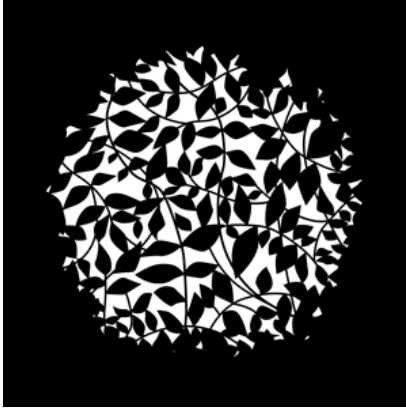

Pattern wash lighting is a great way to personalize your event space with unique designs and patterns projected on a variety of surfaces. Similar and complimentary to monogram projection, pattern wash can add that extra touch.

Often used in theatre productions to enhance a scene or mood, we can achieve the very same effect for your event. Pattern wash lighting compliments drapery and uplighting. With an almost infinite amount of patterns and possibilities, there is an option for every theme and event.
